

CALENDAR TURNED BACK 10 YEARS IN HIS CASE

That's The Way Manchester, N. H. Man Describes Wonderful Results He Has Obtained From Use Of Karnak.

East, west, north and south, all over Maine and New Hampshire, people are taking Karnak, the remarkable new medicine that is being sold here.

Statements like the following, from Mr. John Cornelius, 121 Central St., Manchester, N. H., are being made everywhere:

"Yes, sir, Karnak has rid me of my troubles and put me in such fine shape that I actually feel like it has turned back the calendar ten years for me," says Mr. Cornelius. "Stomach trouble had gotten me into mighty bad condition, and my

digestion was so poor that everything I ate seemed to lie like a heavy lump in the pit of my stomach. It would cause such terrible pain and bloating that I could hardly get my breath at times, and I was in such a weak condition that many a day I went to work when I should have been at home.

"It was the best investment I ever made when I got Karnak. The first dose seemed to soothe my stomach and drive away the gas, and since taking three bottles I don't feel a sign of indigestion at all. The gas that used to just roll up and down in my stomach has completely disappeared, and this in itself is a relief that just seems almost too good to be true. I feel fine all over."

Karnak is sold in Norway exclusively by Frank P. Stone, and by the leading druggists in every town.

SHEEP RAISING CAN BE MADE PROFITABLE

One of the big factors which enters into sheep raising is treatment for internal parasites. If sheep are infested with stomach worms, for example, a large per cent of them will die and those which live will be unthrifty. It is possible, however, to keep these parasites under control by making use of drenches and treatments prescribed by the veterinarians, advises Prof. L. V. Starkey, chief of the animal husbandry division of Clemson college, who adds, that a second factor of importance is the use of pure bred rams. It is remarkable to note the progress which can be made by the use of pure bred rams—even in the first generation there is such a marked improvement that the lambs would not be recognized as products of the native ewes. Southdown and Shropshire rams are best adapted for grading up native ewes.

A third way in which our sheep can be improved is by feed. Many have the idea, says Professor Starkey, that sheep need no feed, but this is a mistake. They need good roughage, such as soy bean or cowpea hay. In addition to the roughage feed some grain for a month before lambing and also after lambing. Feed lambs intended for the early market separately in a creep. By so doing they will make a much more rapid growth, increase in weight, and consequently bring a better price on the market.

By all means dock and castrate lambs when from ten days to two weeks of age. This will make them grow out better and they will command a higher price on the market. Breed ewe lambs, so as to lamb when about two years of age. It is a mistake to have them lamb when a year of age.

Shearing should be done as soon as the weather warms up in the spring. Some time during the summer the flock should be culled and all nonproducing ewes removed. During the summer a frequent change of pasture is desirable.

WOMAN SO ILL WASHED DISHES SITTING DOWN

Mrs. Ashcroft's Remarkable Recovery After Taking Lydia E. Pinkham's Compound

Covington, Ky.—"I was so weak and nervous I could hardly do my housework as I could not stand because of the bearing-down pains in my back and abdomen. I sat down most of the time and did what I could do in that way—as washing dishes, etc. One day a book describing Lydia E. Pinkham's Compound was put in my mail-box. I saw how the Vegetable Compound had helped others so I gave it a try. I had to take about a dozen bottles before I gained my strength but I certainly praise this medicine. Then I took Lydia E. Pinkham's Blood Purifier. I was cold all the time. I would be so cold I could hardly sit still and in the palms of my hands there would be drops of sweat. I also used the Sanative Wash and I recommend it also. You may publish this letter and I will gladly answer any letters from women about these medicines."—Mrs. HARRY ASHCROFT, 632 Beech Avenue, Covington, Kentucky.
